

Environmental Protection

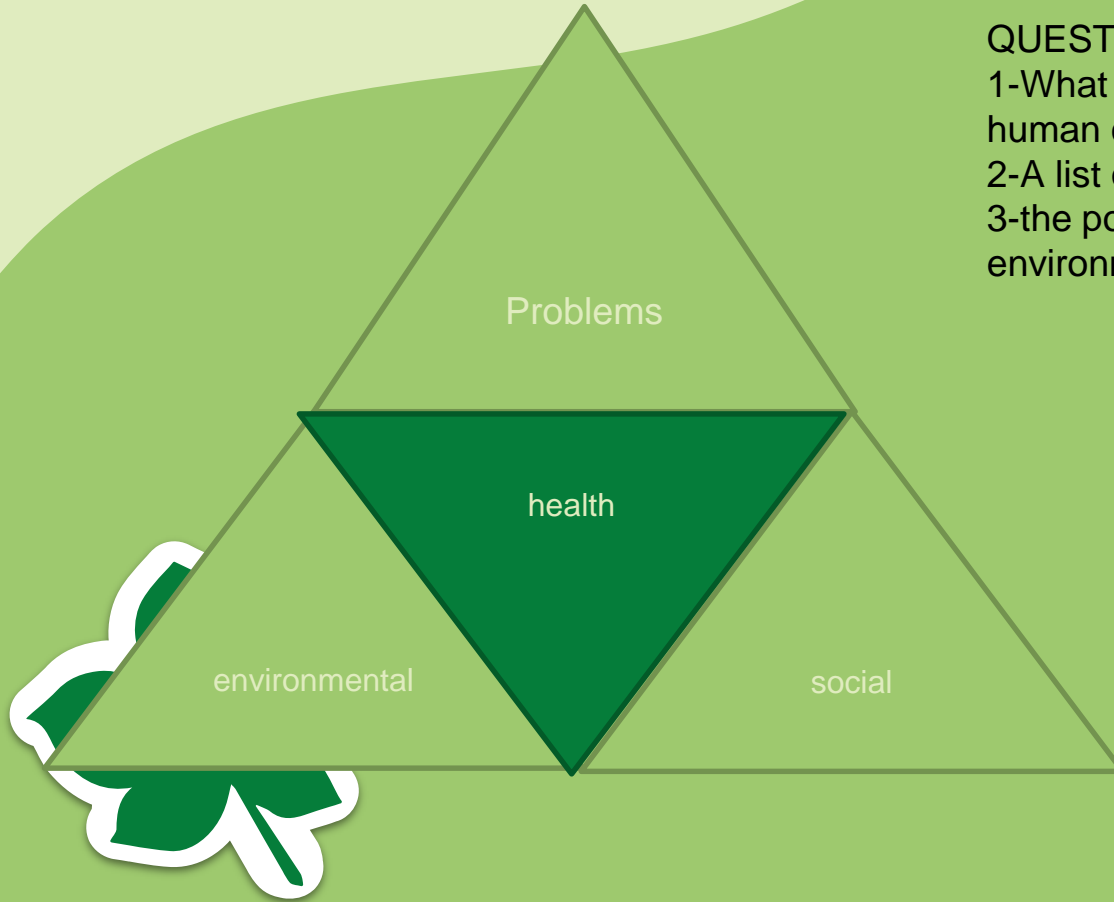

The environment is
where we all meet,
where we all have a
mutual interest, it is
the one thing all of us
share

Lady Bird Johnson

QUESTIONS:

- 1-What are the environmental problems that human caused?
- 2-A list of solutions technology has offered.
- 3-the positive feedback of such solutions on our environment.

Environmental problems

Melting of ice bergs is due to:

Extinction of animals is due to:

Industrial revolution

High temperature caused by global warming

deforestation

Green house gas emission

Loss of habitat

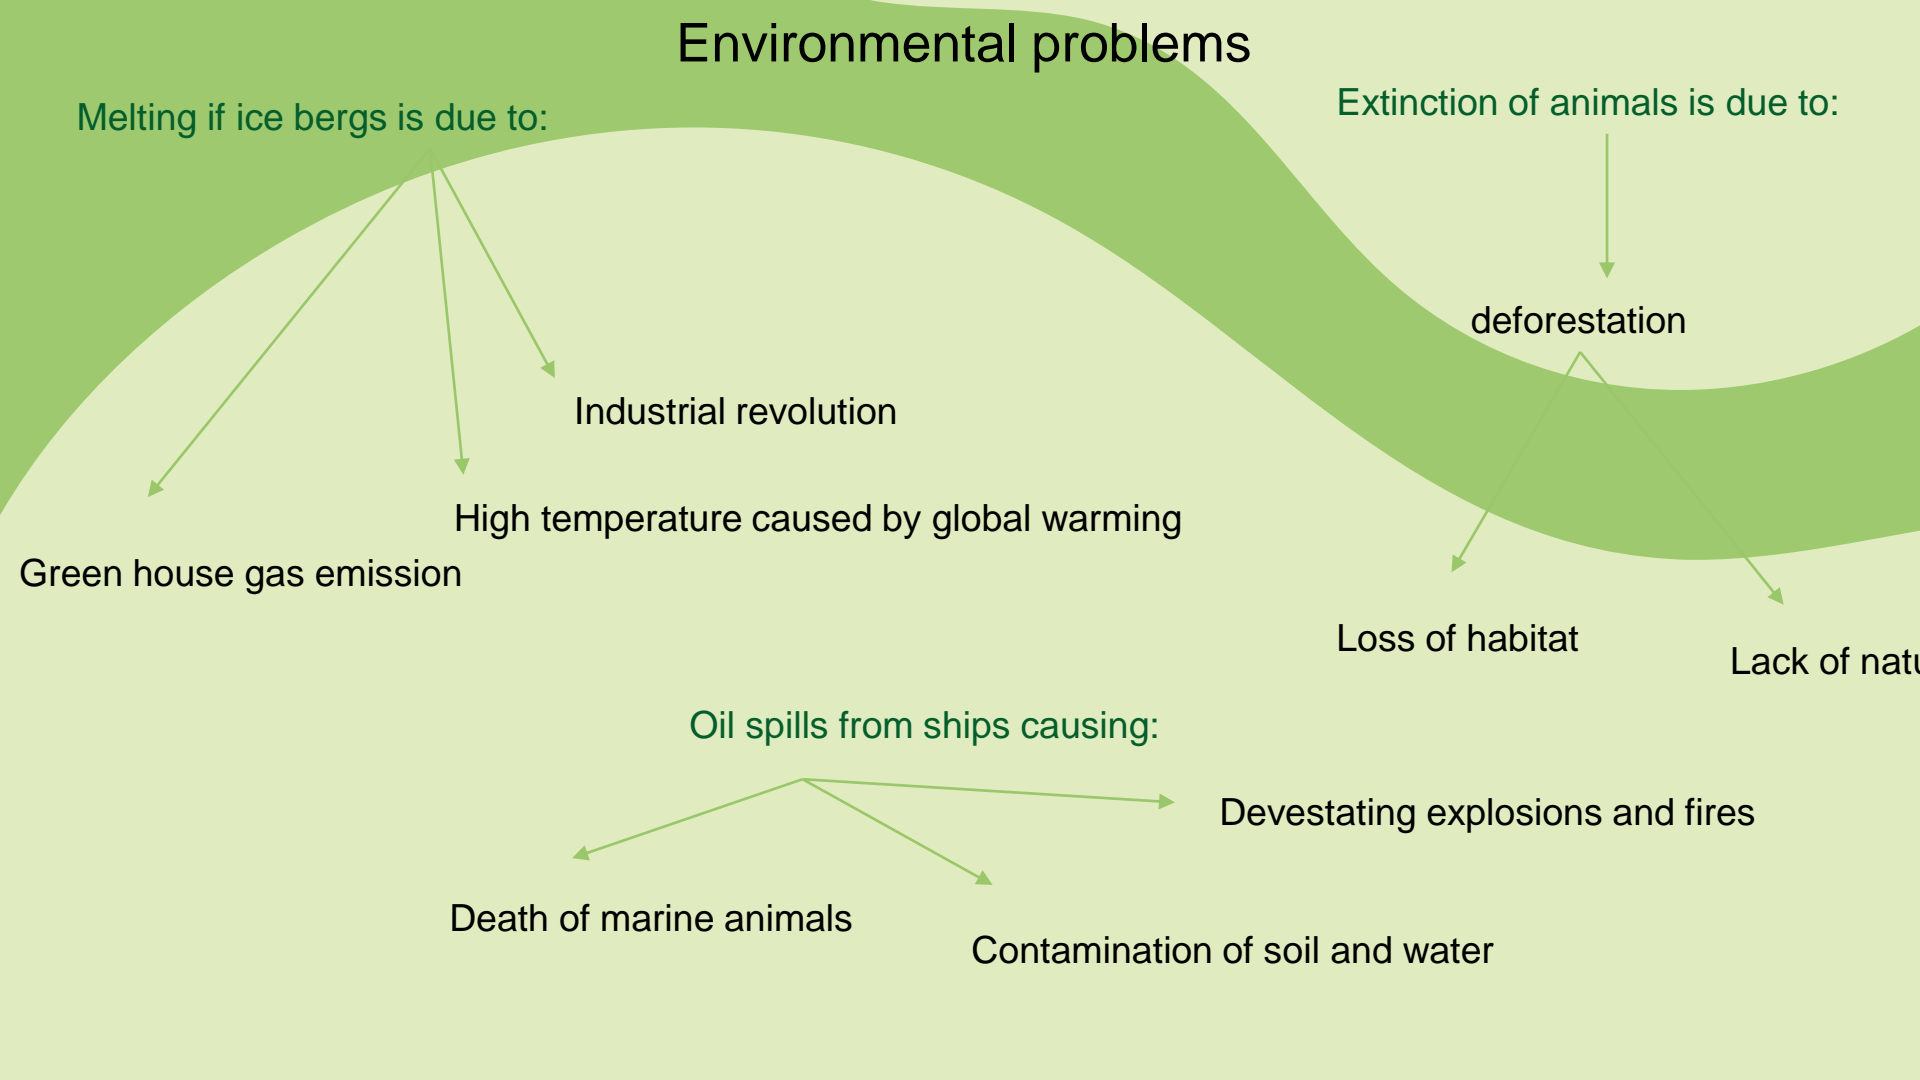

Lack of natural resources

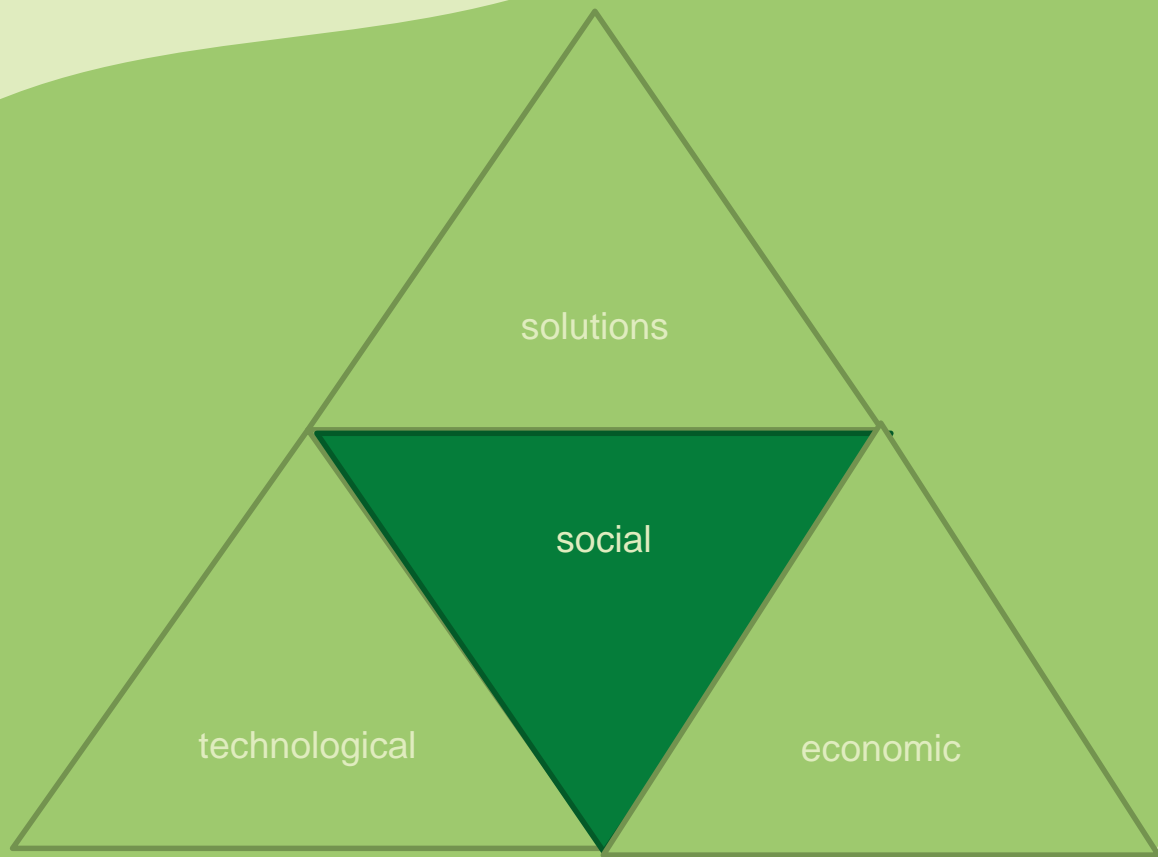

Oil spills from ships causing:

Devastating explosions and fires

Death of marine animals

Contamination of soil and water

Technological solutions

Autonomous ship
responsible for
collecting marine
data

Ice making
submarine
responsible for
pushing out bergs to
help fight climate
change

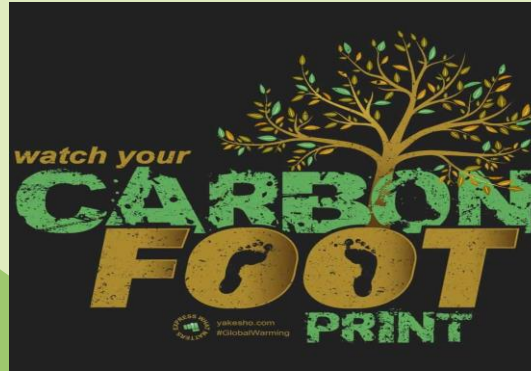

Robobee: flying
microbots
responsible for
pollination and
environmental
monitoring

Volunteer for clean up

Watch your carbon footprint

Conserve water

Bike more drive less

Reduce reuse recycle

conclusion

The technology breakthrough has offered us a chance to rebuild our environment and it will eventually aid us into a healthier planet.

Its given that human beings are the root of there environmental problems, so subsequently, they are the root of change.
